The Issuer provided all interested persons of the public the opportunity, at the time and on the date indicated above, to provide oral comments with respect to the Project and/or the issuance of the Bonds; and caused a report of the Public Hearing (the “Report”) to be prepared which fairly summarizes the views presented at the Public Hearing and distributed the Report to the members of the Issuer; and

WHEREAS, as security for the Company’s Obligation under the Project Loan Agreement and the promissory note issued pursuant thereto (“Borrower Note”), the Company will grant to the Issuer a mortgage lien on and security interest in and to the Mortgaged Premises (as defined in the hereinafter defined Mortgage) pursuant to an Acquisition Loan Multifamily Mortgage, Assignment of Rents, Security Agreement and Fixture Filing or similar agreement, a Building Loan Multifamily Mortgage, Assignment of Rents, Security Agreement or similar agreement, and a Project Loan Multifamily Mortgage, Assignment of Rents, Security Agreement or similar agreement, from the Company and Agency to the Issuer (collectively the “Mortgage”); the Issuer and the Company will enter into a Building Loan Agreement or similar agreement (“Building Loan Agreement”); the Issuer will assign its rights under the Mortgage to the Purchaser pursuant to certain Assignment of Mortgage and Loan Documents, from the Issuer to the Purchaser (the “Assignment of Mortgage”), in conformity and intended compliance with the Freddie Mac Forward (TEL) program; and

WHEREAS, pursuant to SEQRA, the Issuer must consider whether the Project is an “action” that would require it to satisfy the requirements contained in SEQRA prior to making a final determination whether to undertake the Project; and

WHEREAS, pursuant to the SEQR Act, the Issuer constitutes a “State Agency”; and

WHEREAS, the City of Yonkers Planning Board (the “Planning Board”), as an involved agency under SEQRA in connection with land use review, designated itself to act as Lead Agency for purposes of a review of the Project as a proposed action under SEQRA and conducted a review of the Project (the “Planning Board Review”); and

WHEREAS, at the conclusion of the Zoning Board of Appeals Review, on December 20, 2022, the Zoning Board of Appeals determined that the Project will not have a significant effect on the environment, which was memorialized on January 24, 2023 (the “Zoning Board of Appeals Negative Declaration”); and

WHEREAS, pursuant to SEQRA, to aid the Agency in determining whether the Project may have a significant adverse impact upon the environment, the Agency has completed, received and/or reviewed (1) Environmental Assessment Form (“EAF”), dated October 10, 2022, and revised November 7, 2022, submitted by counsel to the Company; (2) New York State Department of Environmental Conservation (“NYSDEC”) Environmental Resource Mapper; (3) New York State Historic Preservation Office’s Cultural Resources Mapper; (4) Zoning Board of Appeals Negative Declaration; (5) the Application; (6) Environmental Assessment Form Parts II and III completed by the City of Yonkers Planning Board, dated July 12, 2023 (“SEQRA Findings”); and (7) other relevant environmental information (collectively, 1, 2, 3, 4, 5, 6 and 7 shall be referred to as the “Environmental Information”); and

WHEREAS, pursuant to 6 NYCRR Part 617.2(al), the proposed action is classified as an Unlisted Action; and

WHEREAS, pursuant to the requirements of 6 NYCRR Part 617.6(b)(4) an uncoordinated review of this action is being conducted as the action will not have a significant adverse impact on the environment; and

WHEREAS, the Company has agreed to indemnify the Issuer against certain losses, claims, expenses, damages and liabilities that may arise in connection with the transaction contemplated by the issuance of the Bonds and the financing of the Project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ISSUER AS FOLLOWS:

Section 1. The Issuer hereby finds and determines:

(a) Pursuant to the Issuer’s certificate of incorporation and the purposes and powers contained within the Act, the Issuer is empowered to undertake the Project, issue the Bonds, and undertake the various transactions contemplated herein.

(b) The Issuer, in undertaking the Project pursuant to the purposes and powers set forth within the Act is acting in the public interest by lessening the burdens of government and, further, is promoting urban redevelopment initiatives in the City of Yonkers, Westchester County, New York.

(c) The financing of the Project by the Issuer, through the issuance of the Bonds pursuant to the Act, will promote and maintain the job opportunities, health, general prosperity and the economic welfare of the inhabitants of the City of Yonkers, and the people of the State of New York and improve their standard of living, and thereby serve the public purposes of the Act.

(d) It is desirable and in the public interest for the Issuer to issue the Bonds for the purposes of financing the costs of the Project, together with necessary incidental expenses in connection therewith as reflected in the Company’s application to the Issuer, as amended from time to time prior to the issuance of the Bonds.

Section 2. Based upon the foregoing investigations of the potential environmental impacts of the Project and considering both the magnitude and importance of each environmental impact indicated, the Agency concurs with the Zoning Board of Appeals Negative Declaration and SEQRA Findings and has determined that the Project will not have a significant adverse impact upon the environment and issues a negative declaration as part of an uncoordinated SEQRA review. The reasons supporting this determination and finding are as follows:

(a) Conformance of Project with the City Code. The Project is in the City of Yonkers M-District, Apartment Medium Density, which permits the Project.

Based on the application for benefits, the City has approved the Project at the Land, including a parking variance from the City of Yonkers Zoning Board of Appeals. Accordingly, given the zoning and local approvals by the City of Yonkers, the Project conforms with the City of Yonkers Code.

(b) Impact on Land. The Project is not anticipated to create any potentially significant adverse impacts to land resources or land use. As noted in the Application, a

significant portion of the Land is already disturbed and most of the Project is an adaptive reuse and rehabilitation of existing buildings.

Through the Project's general compliance with City of Yonkers approvals, the land use and zoning character of the area will be protected. Accordingly, the Project is not anticipated to create any potentially significant adverse impacts to land resources or land use.

(c) Impact on Water. No wetlands abut the Land nor are contained thereon. In addition, the Project is not located in a designated 100-year floodplain. The Land has been previously disturbed, and the improvements will not physically alter, or encroach into, any existing wetland or waterbody. Given the residential nature of the use, no activities proposed for the Project are anticipated to impact groundwater or the aquifer, nor is construction or operation of such project anticipated to expose such aquifer to the undue threat of contamination. Public water will continue to serve the Land and the sanitary disposal will continue to be accommodated by Yonkers Sewer District. Accordingly, the Project will not have an adverse impact on water resources.

(d) Impact on Air. The Project will not be a significant source of air emissions. The Project does not entail the types of activities or operations that require the Company to acquire an air facility permit or that are associated with a significant potential for air emissions. Any potential impact on air as a result of construction activities will be minor and temporary in nature.

(e) Impact on Health or Safety. The Project does not entail the types of activities or operations that are associated with a significant potential for affecting public health. Accordingly, the Project will not create any significant adverse impact to public health, air, land or water resources.

(f) Impact on Plants and Animals Including Threatened or Endangered Species. The EAF identifies the Atlantic Sturgeon and Shortnose Sturgeon as threatened or endangered species potentially located on the site based upon the NYSDEC records. No portion of the Land, however, contains water and, thus, any such endangered species are located offsite, outside of the proposed boundaries of the permanent improvements. The EAF identifies no rare or endangered vegetation onsite. Accordingly, the Project will not create significant adverse impacts to plants, animals or natural communities, wildlife habitat or wetlands.

(g) Impact on Agricultural Land Resources. The Project is located in an area currently devoted to residential, medical, institutional and commercial uses. As a result, it will not involve the conversion or loss of agricultural land resources. Accordingly, the Project will not create any significant adverse impacts to agricultural land resources.

(h) Impact on Aesthetic Resources. The Project will not be visible from any officially designated federal, state or local scenic or aesthetic resource. The Land is

situated in a developed area and is zoned for uses consistent with the Project. As the Project is compliant with its surroundings, it is not anticipated to create any significant adverse impacts to aesthetic resources.

(i) Impact on Historic and Archeological Resources. The land on which the Project is to be located contains the Ethan Flagg House (Blessed Sacrament Monastery) which is included in the National Register of Historic Places due to “the distinctive characteristics of a type, period, or method of construction or that represents the work of a master, or possesses high artistic values, or represents a significant and distinguishable entity whose components lack individual distinction” and due to association of the Land with “lives of persons significant in our past.”

The Project will preserve the onsite structures and their distinctive architectural qualities. The Project’s rehabilitation of the existing buildings will preserve the historic quality of the Land. Although the Project may be visible from the Leffingwell-Batcheller House, included in the National Register of Historic Places, the existing building to be maintained is visible.

The Land is not designated as a sensitive archaeological site. Further, areas near the Land have been previously developed and lack the characteristics that would suggest the potential presence of any significant archaeological resources. Accordingly, the Project will not create any significant adverse impacts to historic or archaeological resources.

(j) Impact on Open Space and Recreation. The Land and adjacent areas around it do not comprise public open space. Further, the density of the Project is not anticipated to create an adverse impact of local parkland. Accordingly, the Project will not create any significant adverse impacts to open space or recreational resources.

(k) Impact on Critical Environmental Areas. The EAF identifies the Land as being in or adjoining the County & State Parks Lands designed by Westchester County as a Critical Environmental Area. This, however, is contrary to the Map prepared by the NYSDEC showing such Critical Environmental Area. Regardless, the Project does not include the type of use that would have any negative impact on the County & State Parks Lands.

(l) Impact on Transportation. Based on the EAF, SEQRA Findings and the Agency’s experience, the scale of the project will not result in a substantial increase in traffic above capacity of current traffic infrastructure, nor is it expected to generate substantial new demand for transportation facilities or services/infrastructure. Further, anticipated truck traffic associated with the operation of the Project is also not anticipated to result in significant negative effects given that the improvements are relatively small in relation to the existing building and use being maintained on the Land. Any impacts to transportation from construction activities associated with the Project will be minor and

temporary in nature. Accordingly, it is not anticipated that the Project will create any significant adverse impacts to transportation.

(m) Impact on Energy. The Project may result in an increase in energy usage, however, existing utilities serve the area where the Project will be developed and are anticipated to have adequate capacity to serve it. As a result, the Project will not create any significant adverse impacts to energy.

(n) Impact on Noise and Odor and Impacts from Light. The Project is not expected to materially increase ambient noise levels or to create odors of consequence particularly considering such project setting including the Land. As a result, it is not anticipated that the operation of the Project will result in undue noise impacts. Further, any impacts to noise and/or odor from construction activities will be minor, and temporary in nature. In addition, any such noise from construction will be undertaken during work hours and as such is not anticipated to be significant. Accordingly, the Project will not create any significant adverse impacts to noise or odors.

(o) Impact on Growth and Character of the Community and Neighborhood. The Project is not anticipated to result in significant growth out of character or beyond the capacity of the area to accommodate the same considering the zoning of the site of said project, existing improvements on the Land and surrounding uses. In sum, the Project is similar and is in character with surrounding uses. Accordingly, the Project is not anticipated to create any significant adverse impacts to the growth or character of the community.

(p) No Related Actions being Funded, Undertaken or Approved by the Agency. The Project is not associated with any related action being undertaken, funded or approved by the Agency. Accordingly, the Project is not anticipated to have a cumulative impact that affects the consideration of the Project under SEQRA.

(q) Changes Associated with the Project Will Not have a Significant Impact on the Environment in the Aggregate. No anticipated changes in two or more elements of the environment, neither of which has a significant impact on the environment, when considered together will result in a substantial adverse impact on the environment given existing environmental conditions and mitigation measures included in the improvements.

Section 3. The proposed financial assistance being contemplated by the Issuer includes (i) financing all or a portion of the Project Costs by the issuance of the Bonds in an amount not to exceed the lesser of the Project Costs or \$27,170,000, and (ii) a mortgage recording tax exemption as permitted by New York State law.

Section 4. The Chairman, Vice Chairperson, the Executive Director, and all officers of the Issuer, are hereby delegated the authority to approve the Funding Loan Agreement, Project Loan Agreement, Tax Regulatory Agreement, to be dated as of the date of issuance and delivery

of the Bonds (the “Tax Regulatory Agreement”), pursuant to which the Issuer and the Company make certain representations and covenants to ensure the continued tax-exempt status of the tax-exempt Bonds, a certain Tax Certificate, to be dated as of the date of issuance and delivery of the Bonds (the “Tax Certificate”), the Mortgage, the Building Loan Agreement, the Assignment of Mortgage and all other certificates and documents required in connection with issuance and sale of the Bonds or otherwise required to accomplish the Project, or qualify a portion of the interest on the tax-exempt Bonds for tax-exempt status under Section 103 of the Code (such certificates and documents collectively called the “Financing Documents”) and an Internal Revenue Service Form 8038 (the “Information Return”) in connection with the issuance of the Bonds.

Section 5. The Chairman, Vice Chairperson, the Executive Director, and all officers of the Issuer, are hereby delegated the authority to approve the Bonds (which shall be in a form as will be approved by counsel to the Issuer).

Section 6. Based on the foregoing, the Issuer hereby determines to (a) execute and deliver the Financing Documents, (b) the Secretary of the Issuer is hereby authorized to affix the seal of the Issuer thereto where appropriate and to attest the same, all in substantially the forms thereof presented to this meeting with such changes (including without limitation any change in the dated date of such documents), variations, omissions and insertions as the Executive Director shall approve, (c) grant exemption from recording taxes applicable to the Mortgage, (d) execute and deliver the Bonds, and (e) do all things necessary, convenient or appropriate for the accomplishment thereof. All acts heretofore taken by the Issuer with respect to the foregoing are hereby approved, ratified and confirmed.

Section 7. The Issuer hereby determines to execute the Information Return and to file the same with the United States Internal Revenue Service.

Section 8. The Issuer is hereby authorized to issue, execute, sell and deliver to the Purchaser the Bonds in the aggregate principal amount of up to \$27,170,000 in the forms heretofore approved in this resolution, and in accordance with the Funding Loan Agreement, provided that:

- (a) The Bonds authorized to be issued, executed, sold and delivered pursuant to this Resolution (i) shall be issued, executed and delivered at such time as the Chairman, Vice Chairperson, or the Executive Director of the Issuer shall determine, (ii) shall be in such aggregate principal amount not to exceed \$27,170,000, and (iii) shall bear interest at such rate or rates as are set forth in the Bonds and the Funding Loan Agreement or as are hereinafter approved by the Chairman, Vice Chairperson, or the Executive Director of the Issuer in accordance with this Resolution, and (iv) shall be subject to prepayment prior to maturity, and have such other provisions and be issued in such manner and on such conditions as are set forth in the Bonds and the Funding Loan Agreement, all of which provisions are specifically incorporated herein with the same force and effect as if fully set forth in this resolution.

(b) The Series 2024A Bonds will be issued as tax-exempt obligations in an aggregate principal amount of up to approximately \$22,834,840 contingent upon receipt of the Additional Volume Cap, and the Series 2024B Bonds (Forward Delivery) will be issued in an aggregate principal amount of up to approximately \$4,335,160, contingent upon the Issuer's receipt of the requisite volume cap allocation for 2025.

(c) The Bonds shall be issued solely for the purpose of providing funds to assist the Issuer to finance a portion of the Project Costs and the administrative, legal, financial, and other expenses of the Issuer in connection with and incidental to the issuance of the Bonds.

(d) Based upon the opinion of Harris Beach PLLC, as Bond Counsel, the Bonds and the interest thereon are not and shall never be a debt of the State of New York or the City of Yonkers, and neither the State of New York nor the City of Yonkers, shall be liable thereon.

(e) The Bonds, together with interest payable thereon, shall be special obligations of the Issuer payable solely from the revenues and receipts from payments made by the Company to the Issuer under the Project Loan Agreement.

(f) The Issuer hereby authorized to provide Company with the financial assistance in the form of a mortgage recording tax exemption.

Section 9. Notwithstanding any other provision of this resolution, the Issuer covenants that it will make no use of the proceeds of the tax-exempt Bonds or of any other funds which, if such use had been reasonably expected on the date of issue of the tax-exempt Bonds, would cause the Tax-Exempt to be "arbitrage bonds" within the meaning of Section 148 of the Code.

Section 10. Due to the complex nature of this transaction, the Issuer hereby authorizes its Chairman, Vice Chairperson, or the Executive Director of the Issuer or any other officer to approve, execute and deliver such further agreements, documents and certificates as the Issuer may be advised by counsel to the Issuer and/or Bond Counsel to be necessary or desirable to effectuate the foregoing, such approval to be conclusively evidenced by the execution of any such agreements, documents or certificates by the President of the Issuer.

Section 11. The officers, employees, and agents of the Issuer are hereby authorized and directed for and in the name and or behalf of the Issuer to do all acts and things required or provided by the provisions of the Financing Documents, and to execute and deliver all such additional certificates, instruments and documents, including the Financing Documents, and to do all such further acts and things as may be necessary or in the opinion of the officer, employee, or agent acting, desirable and proper to effect the purposes of the foregoing resolution and to cause compliance by the Issuer with all of the terms, covenants, and provisions of the Financing Documents binding upon the Issuer.

Section 12. The Issuer hereby expressly acknowledges that the Bonds will be limited obligations of the Issuer payable, with respect to the Issuer, solely from the revenues pledged therefore. The Bonds will not be general obligations of the City of Yonkers, or the State. Neither the full faith and credit nor the taxing power of the City of Yonkers or the State of New York are pledged to the payment of any amount due under the Bonds.

Section 13. Counsel to the Issuer and Harris Beach PLLC, as Bond Counsel for the Issuer, are hereby authorized to work with counsel to the Company and others to prepare for submission to the Issuer, all documents necessary to effect the authorization, issuance and sale of the Bonds and reimbursement of the cost of all such work prior to the date hereof is hereby authorized to the extent permitted by the Code.

Section 14. This resolution shall take effect immediately and shall be continuously available for inspection by the general public during normal business hours at the Issuer's office.
